The carpenters will finish their work on the new chapel in Arcadia this week. The decorators have been at work for some time but will not get through for a couple of months.

Bert Gregory was over from Fredericktown last week for a few days. Bert says about all the satisfaction he got out of the electtion was the defeat of Folk and the result in Iron county.

They say they are going to paint the town red Friday night. As the colored brother was'nt given a show to run for any of the offices he will probably be accorded a front seat in the procession.

Archdeacon Walton held services in St. Paul's church Monday night. Afterwards a meeting of the congregation was held and it was agreed to try and secure a rector for the church here in the

spring. The "ring busters," it is said, are dissatisfied with the count in Iron county and want it done over again. Wonder if they would like to have the votes counted like they used to count them when they had the power.

All agree that, even in the drouth of 1901, it was not as dry as it is now. Of course, the drouth that year was more disas-trous, for it came in spring and summer. But the dryness of this

fall has never been equaled. People are wondering what the new county court proposes doing relative to the dramshop question. Whether the present restrictions in regard to securing license will be adhered to, or whether the oldtime custom of granting a licence on a majority petition will be in

When the Republican candidate for Judge of the western district went into the booth on election day he called on some of the election officers to help him make out his ticket. That's the kind of material that the party of "pro-gress and reform" wants to put in the offices in Iron county.

The ticket sales at the Ironton station last month were in excess of \$1,000. This is the biggest business in the history of the station. Ironton has done her part to uphold the two-cent law. If we had anything like the accommodations we are entitled to of inquiries coming in. the sales would be much larger

It is the largest by 3-4ths of a pound, of 140 bushels dug from a half-acre patch on Mr. Hilburn's farm in Jefferson county, Arkansas. It certainly is fine looking "fruit."

Wm. Trauernicht was in Ironton Monday on business in the probate court relative to the estate of the late Richard Hartnoll of Graniteville. The deceased left a will naming Mr. Trauernicht as his executor without bond. The estate is worth probably \$2500 and will be divided among three nephews of Mr. Hartnoll's who live in Massachusetts.

Iron county is a Democratic desert. All the oasis in the counties round about us, with the exception of Reynolds, elected Republican officials. In Madison county all that was saved from the wreck by the Democrats was a judge of the county court and a justice of the peace. Sam. Mitts who used to run a barber shop in this city, was elected treasurer on the republican ticket.

Miss Lela O' Neal, who has served as deputy in the county clerk's office for a number of years past, has resigned her position and gone to St. Louis, where she will spend the winter taking a course in shorthand. Miss Lela is ISTER numbers her among its truest and staunchest friends. She is capable and accomplished, and we wish her the greatest success.

The Republicans did not have their ratification meeting last Saturday night, as was first in-tended but posponed it until next Friday night. "Too big a thing to get ready in such a short time' is the reason assigned for delay. You may, all know that the Democrats have been beaten heretofore at Pilot Knob by a majority of 3 or 4 to 1. majority 2 to 1. And what about our nation, boys? Do you think it has stood ap to its profession? As you know, this nation stands in the ead of all Christian nations? She has prided herself with putting out more missionaries into heathen lands, than any other nation, but do you think that she did a Christain act last Tuesday, when she indorsed the doctrines of John offending corporative leaders, including that "undesirable citizen,"
Mr. Harriman? And what is more, she indorsed the doctrine of Taft, the enemy of those teachings set forth in that book of books; also the enemy of the great masses of poor, and a friend, only of the few who possess milions. But since tnese things have been advocated and indorsed, does any one, right down in his heart, believe that this nation can live ane prosper under such a damnable doctrine? I for one do not believe that it can. Bryan asks, "Shall the people rule?" The trusts and corporations, and mon-eyed powers have answered; and the people will not rule again for
